

EASTERN WHITE PINE *Pinus strobus*

Zones 3 4 5 6 7 8
and north in zone 10

Fast-growing pyramid when young, loses lower branches with age. Height 18-25' (5.4-7.5m) in 15 years, matures to 75-130' (22.5-39m).

Needles in groups of five, soft and blue-green.

Soil: almost any, well-drained. Tolerates poor, rocky, light and sandy conditions.

Light: full sun, though light shade needed in extreme heat.

Uses: specimen or accent, screen or windbreak.
