

Low-growing erect deciduous shrub. Height 2' (60cm) with spread equal to or greater than height.

Flowers in midsummer on this year's growth. Rose pink blossoms in flat clusters.

Leaves long and narrow with serrated margins. Pinkish green when young, turning mid-green; some variegated leaves.

**Soil:** almost any.

**Light:** best in full sun.

Tolerates moist conditions.

**Pruning:** prune in early spring to encourage new growth for flowers in the same year.

**Uses:** shrub borders, low hedge, specimen.
